*The Original and still the BEST! Quality - Service - Value*

*Thank you for choosing Goldman Products!*  
**Please allow 2 weeks for processing. Make sure your instructions are clear.**  
 Work done according to unclear instructions is not guaranteed.

**Please sterilize instruments before and after sending them to Goldman for repair.**  
 New and re-tipped instruments are guaranteed against material and manufacturing defects for 30 days.  
 Sharpened, altered, custom, irregular, or abused instruments are **not** guaranteed.

**Please retain your tracking number when you ship your order to us. Insurance is recommended.**  
 Shipping and handling charges begin at \$9.40 for the contiguous US  
 (add'l. shipping charges may apply); other locations may be higher.  
 If you use a Goldman Products Pre-Paid label, you will be charged for shipping.  
 (Please note that Pre-Paid labels carry a **MAXIMUM of \$100** and are for use with U.S. addresses only).  
 We are not responsible for loss of property due to poor packaging, damage during shipment or lack of insurance.

3/8 inch (wide)  
Color treated, dark  
Wide, lightweight handles

**MATERIALS AVAILABLE:**

**Standard (Surgical stainless steel):**

The high-quality US stainless steel that we've always made our tips with is widely considered the "gold standard" for dental instruments.

**Tungstenize: \$1 extra per tip**

Sharpen less often with our Tungstenized coating for scalers and curettes. Blades normally last 2-3 times longer than our stainless steel tips, and can be resharpened once they become dull.

**TiN (Titanium Nitride): \$3 extra per tip**

Never sharpen again! Our TiN coating is much harder than the premium surgical stainless steel tip underneath, meaning your blade will last much longer than normal. TiN instruments are not recommended for sharpening; when they do eventually get dull they should be retipped instead.

**IMP (Implant Care): \$3 extra per tip**

Implant care has never been easier! Implant tips are soft enough to avoid scratching dental implants, and are also thinner, stronger, and easier to use than plastic-based implant care tips. Available in all designs of scalers or curettes as well, so you're not limited to a few choices.

**1 for 1 TRADE-IN SERVICE FOR NEW INSTRUMENTS**

**\$6.00 OFF**

**new instrument prices!**

We will accept ANY instrument as a trade!

Always our best price on new instruments!
